On Going Java String Quiz

Instructions :

- Do not Refresh the page. otherwise you will get new questions in this quiz
- Do not Switch the tabs.
- Do not minimize the window.

Q 1.

How many ways are there to create a String Object in java?

☐ 1

☐ 2

☐ 3

☐ 4

Q 2.

Why Java uses the concept of String literal?

☐ collection is framework

☐ server component

☐ Interface

☐ To make Java more memory efficient (because no new objects are created if it exists already in the string constant pool).

Q 3.

Where Strings are Stored in memory?

☐ If we create a String using literal then====>>>Stored in "String constant pool"

☐ If we create a String using new keyword====>>>Stored in "Heap memory"

☐ Both

☐ None of above

Q 4.

What is String?

☐ string is basically an object that represents sequence of char values. For example, "hello" is a string containing a sequence of characters 'h', 'e', 'l', 'l', 'o' and '\0'. It uses double quotes to

☐ Its a class
